EARTHQUAKE SHAKES MEXICO

Does Much Damage to the Town of Chilapa, Though But Few Fatalities Occur.

(By Associated Press.)
CITY OF MEXICO, Mex., March 27.—Governor Damian Flores, chief executive of the state of Guerrero, who is at present in this city, has just received the first official advices from the town of Chilapa, said to have been destroyed in a heavy earthquake shock which occurred last night. The message says that although a number of buildings of the town were leveled to the ground, no lives were lost. Police quarters and the mayor's office were destroyed, and the jail badly damaged. Great fissures were made in the streets and thirty prisoners escaped. Troops are guarding the public buildings that are left standing in Chilapa, and perfect order prevails. Later returns from Chilapa show, however, that the dispatch received by Governor Flores was ultra conservative. The town was practically destroyed, though no lives were lost. Most of the buildings and residences were leveled. Thirty-four shocks were recorded during the past twenty-four hours by the seismograph at the national observatory at Tabuaya. Most of these shocks were imperceptible, except to the delicate needle of the instrument. Mrs. Emma Jeanette Derville, an American, lost her life in a panic at the Tiburcio theatre in the city of Vera Cruz, which followed the earthquake last night. When the quake came the audience rushed for the exits, and many persons were severely bruised, but only one was seriously injured. Mrs. Derville dropped dead from fright. In this city, General Darne was killed, fifteen persons slightly, and one fatally injured by falling walls. All these belonged to the working class.

General Brush responded that he had dispatched one company of infantry to Treadwell, a distance of about 100 miles. The troops should reach their destination in a day or two.

NEW YORK, March 27.—Dun & Co's. weekly review of trade tomorrow will say: In the leading industries there is evidence of a gradual increase in contracts, many plants are preparing for greater activity beginning April 1, while the proposed reductions of wages have produced no threats of strikes. People have flocked to the scene of the gold strike from Coulterville, Mariposa and other neighboring points and have staked out claims all around the Pearson claim. The scene of the strike is only half a mile from the Yosemite Valley railroad, and is therefore easy of access.
